Abstract: The Endangered Species Act (16 U.S.C. 1531 et seq.) makes it unlawful to import or export fish, wildlife, or plants without filing a declaration or report deemed necessary for enforcing the Act or upholding the Convention on International Trade in Endangered Species (CITES) (see 16 U.S.C. 1538(e)). With a few exceptions, businesses, individuals, or government agencies importing into or exporting from the United States any fish, wildlife, or wildlife product must complete and submit to the Service an FWS Form 3–177 (Declaration for Importation or Exportation of Fish or Wildlife). This form as well as FWS Form 3–177a (Continuation Sheet) and instructions for completion are available for electronic submission at <https://edecs.fws.gov>. These forms are also available in fillable format at <http://www.fws.gov/forms/>.

The information that we collect is unique to each wildlife shipment and enables us to:

- Accurately inspect the contents of the shipment;
- Enforce any regulations that pertain to the fish, wildlife, or wildlife products contained in the shipment; and
- Maintain records of the importation and exportation of these commodities.

Businesses or individuals must file FWS Forms 3–177 and 3–177a with us at the time and port where they request clearance of the import or export of wildlife or wildlife products. Our regulations allow for certain species of wildlife to be imported or exported between the United States and Canada or Mexico at U.S. Customs and Border Protection ports, even though our wildlife inspectors may not be present.

In these instances, importers and exporters may file the forms with U.S. Customs and Border Protection. We collect the following information:

- (1) Name of the importer or exporter and broker.
- (2) Scientific and common name of the fish or wildlife.
- (3) Permit numbers (if permits are required).
- (4) Description, quantity, and value of the fish or wildlife.
- (5) Natural country of origin of the fish or wildlife.

In addition, certain information, such as the airway bill or bill of lading number, the location of the shipment containing the fish or wildlife for inspection, and the number of cartons containing fish or wildlife, assists our wildlife inspectors if a physical examination of the shipment is necessary.

In 2009, we implemented a new user fee system intended to recover the costs of the compliance portion of the wildlife inspection program. Since that time, we have been made aware that we may have placed an undue economic burden on businesses that exclusively trade in small volumes of low-value, non–federally protected wildlife parts and products. To address this issue, we implemented a program that exempts certain businesses from the designated port base inspection fees as an interim measure while we reassess the current user fee system.

Businesses that possess a valid Service import/export license may request to participate in the fee exemption program through our electronic filing system (eDecs). Qualified licensees must create an eDecs filer account as an importer or exporter, if they do not already have one, and file their required documents electronically. To be an approved participating business in the program and receive an exemption from the designated port base inspection fee, the licensed business must certify that it will exclusively import or export nonliving wildlife that is not listed as injurious under 50 CFR part 16 and does not require a permit or certificate under 50 CFR parts 15 (Wild Bird Conservation Act), 17 (Endangered Species Act), 18 (Marine Mammal Protection Act), 20 and 21 (Migratory Bird Treaty Act), 22 (Bald and Golden Eagle Protection Act), or 23 (the Convention on International Trade in Endangered Species of Wild Fauna and Flora). The requesting business also must certify that it will exclusively import or export the above types of wildlife shipments where the quantity in each shipment of wildlife parts or products is 25 or fewer and the total value of each wildlife shipment is \$5,000 or less. Any licensed business that has more than two wildlife shipments that were refused clearance in the 5 years prior to its request is not eligible for the program. In addition, any licensees that have been assessed a civil penalty, issued a Notice of Violation, or convicted of a misdemeanor or felony violation involving wildlife import or export will not be eligible to participate in the program.

Comments Received and Our Responses

Comments: On December 28, 2016, we published in the *Federal Register* (80 FR 80792) a notice of our intent to request that OMB renew approval for this

information collection. In that notice, we solicited comments for 60 days, ending on February 26, 2016. We did not receive any comments.

Request for Public Comments

We again invite comments concerning this information collection on:

- Whether or not the collection of information is necessary, including whether or not the information will have practical utility;
- The accuracy of our estimate of the burden for this collection of information;
- Ways to enhance the quality, utility, and clarity of the information to be collected; and
- Ways to minimize the burden of the collection of information on respondents.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask OMB and us in your comment to withhold your personal identifying information from public review, we cannot guarantee that it will be done.
